Vera Kessells is a native of the Netherlands and became a US Citizen in March, 2014. Growing up in a family of show jumpers, Vera eventually found that her passion was for dressage. Vera has a busy teaching and training business and has developed numerous horses to the Grand Prix level. Vera moved to the United States in 1995 after working for ten years at a large training and sales barn in Holland. She brought her Grand Prix horse Dotato to the US and initially worked as a trainer for Nan Sexton. Eventually she started her own business, met Michael Barisone and things developed from there. Vera welcomes dressage riders of every level to teach, advise and guide in a supportive and friendly way.
